City festival

Education

- 5 higher education institutions
- 3 professional-technical schools
vocational education
- 11 comprehensive schools
- 12 pre-school establishments

There are three faculties in RTA: Economic and Management, Engineering, as well as Education, Language and Design faculty. RTA offers world-class standard education and provides its students modern facilities, rich cultural environment and a variety of study programmes to choose from. It offers Professional bachelor study programmes, Master study programmes and Doctoral study programmes to more than 1 800 students. RTA promotes the development of science and research, acquisition of new technologies, development and transfer to Latvian national economy.

Vocational schools refer to secondary education designed to provide vocational education, or technical skills required to perform the tasks of a particular and specific job according to labour market demands.. Rezekne offers great opportunities of vocational education for the youth of Rezekne and other cities.

Catering

The city has a wide variety of high quality dining options

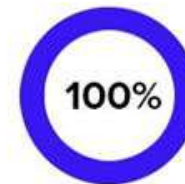

Rezekne special economic zone

Rezekne SEZ is the largest inter-sectoral industrial area in Eastern Latvia, where entrepreneurship is carried out on preferential terms with state support provided by the Latvian government.

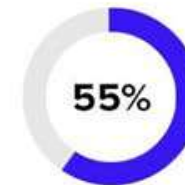

According to a survey of the most promising economic zones in the world, conducted by fDi Magazine (Financial Times), the Rezekne Special Economic Zone has been recognized in two categories: **infrastructure development and reinvestment**

Real estate tax relief up to 100%

Corporate income tax relief of 80%

Return of investment costs in tax incentives up to 55%

Rezekne in the future

The construction of a park around the city lake with a restaurant, an observation deck, a boat station and walking trails is nearing completion. Also in May 2021, the construction of a picturesque promenade along the city river will be completed.

The city is engaged in the restoration of degraded areas, ensuring environmentally friendly and environmentally sustainable growth of territories and creating new jobs.

Rezekne in the future

Creation of public hotel infrastructure and infrastructure for tourism. Construction of a recreational center with restaurants, bars and a conference center has begun.

Recreational center
